Paint Better.

Paint isn't enough; paint best. A man bought "cheap" paint; saved 30 or 40 or 50c a gallon, didn't

see, and bought 40 or 50 or 60 or 80 cent more gallons; how much did he make on his paint?

—a fair days work is a gallon—much did he make on the labor of his job?

He lost a quarter or third of his pay.

How long will it last? not his money, paint?

Perhaps half as long as Devoe. How will his money last, if he buys better stuff as he bought that paint? Better buy the best paint; it makes least bill and least-often.

TWO MEDINA COUNTY PIONEERS

MR. AND MRS. ROLF FRERICHS.

A Tribute to the Late Rolf Frerichs

Mr. Rolf Frerichs died in Hondo, August 18, 1913, and there were thousands assembled to pay their last respects to the departed. The family's tears in sorrow fall over a loving father, husband and friend for he did love them all, for his deeds will show it. To forget him, we can never, for his family will think of him forever.

Mr. Frerichs was born January 5, 1833, and arrived in Quilhi in 1856 and was married to Miss Anna De Grodt. She is a noble woman and a happy mother, and was a loving wife to our departed

friend. They raised a family of which they were both proud, for they are respected by all in Medina County.

Mr. Frerichs' watchword was: "Help those who need help." He was a man among men. He did more for Hondo to make it a place to live in than any man in Medina County. He will be missed by many.

His remains were laid to rest in the new cemetery. I, his old friend, say dust to dust as it was in the beginning and the spirit to God who gave it.

I mourn for you, my friend.

CAPT. FRED. METZGER.

F. G. Muennink went to San Antonio Wednesday on business.

Up to Thursday night there had been shipped 2637 bales of cotton from this point this season.

The Sunrise Lumber Co. wants to figure all of your lumber bills. We can satisfy you in price and quality.

Mrs. J. W. Cruseturner attended the unveiling of a monument to her late husband at Martindale Sunday.

Mr. and Mrs. W. T. Ford are here from Sweetwater on a visit to Mrs. Ford's mother, Mrs. G. W. Monkhouse.

Richard Reilly passed through here Thursday enroute to San Antonio to have his eyes treated by a specialist. We regretted to learn that his eyes are not improving as fast as one could wish.

The Commissioners are having some concrete walks put in at the court house. This adds very materially to the appearance of the yard and will prove a great convenience in muddy weather.

Mrs. J. A. Williamson and little son, Montel, left Wednesday for Honey Grove where they will visit Mr. Williamson's parents, a week before returning to their home in Oklahoma City, Oklahoma.

C. W. Roberts and Claud Gilliam of Hondo and Boss Peterson of Kerrville, Hudson dealers in their respective territories, are in the city. Mr. Peterson reports the sale of two Hudson "Sixes," made during the Kerrville fair.—Monday's Light.

Prof. L. D. Hardt left Wednesday for Paige, Texas, where he will have charge of the school as principal for the coming session. Prof. Hardt will have associated with him three other teachers. The Anvil Herald congratulates the young man on his advancement and wishes for him a successful school term.

An Enjoyable Day.

On Sunday last quite a number of people came out from San Antonio in cars and spent a jolly and delightful day at the home of Mr. Paul Oefinger Jr., and family. There were also a crowd from here and Mrs. J. C. Morris and niece, Miss Mary Braden, from El Paso, who are spending some time with Mr. Paul Oefinger Jr., present.

A fine dinner was served. Miss Adella Mueller, after spending some time with Misses Bertha and Minnie Oefinger, returned to San Antonio with the crowd again Sunday night.

To The Public.

On Monday next, September 1st, I will open a Grocery Store in the South room of the Ward Building on Harper Avenue. I have a complete stock of fresh new groceries and will sell the same as low as is consistent with a reasonable profit. Goods will be delivered promptly to any part of the city. When you need any thing in my line call and let me supply you or ring up telephone 201 and your order will be promptly filled.

Respectfully soliciting your trade, I am,

Yours to serve,
J. FLOYD SLATER.

The depot premises have been greatly improved by the laying of burnt clay walks where passengers board and alight from the trains.

H. C. Collier of Dallas and Mrs. Ernest Collier of San Antonio returned to their homes Wednesday after a pleasant visit to the family of B. G. Collier.

1914 HUDSON--54

LARGEST BUILDERS OF SIX-CYLINDER CARS IN THE WORLD TODAY

PRICE, \$2250, F. O. B., DETROIT, MICHIGAN

You, as a motor car buyer, owe it to yourself, your family and your business to know thoroughly the car you buy.

The average motor car buyer has probably never in his whole life given thought or study to the actual process of construction of motor vehicles.

If he did he would ask for more searching information as to the merits of the various units which make up a car.

He would ask more carefully concerning the company who builds those units; and he would demand definite reasons for the claims of superiority.

The high Hudson standard began with the building of the first Hudson car.

It began then because the first Hudson car carried in its specifications certain high standards that were recognized the world over for their proven merits.

Hudson supremacy was assured because of the Hudson organization and the care and exactness used by that organization in the selection of vital specifications.

Any organization obtains its highest degree of accuracy only when the concentrated effort of each man and mind is directed upon one issue.

The Hudson builders have turned their continuous effort to the assembling into a harmonious whole the highest standards of motor car manufacture.

Because honest worth has forced the adoption of such products as Timken axles and Timken bearings, Warner transmissions and Warner cut gears, Continental motors, Delco ignition and starting system and Delco electric lights, Fisk tires, etc., is only another example of that business law which rewards the fit against the unfit.

But you say, "how about the claims of those motor car manufacturers who state they build their product in its entirety!"

We answer that question by asking you one that your business sense will answer.

Can any one organization reach the top-most degree of efficiency in the manufacture of every part of a car—of motors, bearings, axles, batteries, gears, etc.?

You will answer—"Decidedly not."

And you will base your judgment upon the general knowledge that if such were possible the mammoth organizations contributing to the superiority of the Hudson car would necessarily cease business.

And right there you have struck the keynote of the automobile industry.

The fact that such companies building these parts well do exist—and successfully—is conclusive proof that there is a specified place for these master builders of automobile parts.

It is common information that these enormous factories, whose yearly business necessitates a combined capital of millions of dollars, are devoting the majority of their efforts to the production of those very units which, to a large measure, have been responsible for Hudson worth.

It is not surprising when you consider that in the highest quality cars, only the highest quality specifications can be conscientiously used.

The chief difference between Hudson cars and others of the more unsightly and unsafe construction is that the Hudson is created for the future—not rebuilt from the past.

The Hudson people did not have to pattern their car after any so-called manufacture.

They created and included in the Hudson those very essentials for safety, service, simplicity, comfort and convenience that they knew the motor car buyer would soon demand.

Consider any one of the later models of competition and you will find some one or two Hudson characteristics.

To completely copy the Hudson standard, thousands and thousands of jigs and dies and machines must be thrown into the dust bin.

"Old manufacture" must be discarded as though it had never existed, and until then the worth of all motor cars will be measured by close comparison with the Hudson car.

Buy a Hudson and own the best car built. There is nothing better built at any price.

Slide, Davis, Slide.

Fletcher Davis wants to "speak a piece" in Stockton—cannot ride—He scorns to walk—why hesitate? Just "slide, Davis, slide."—Crystal City Chronicle.

Your advice, we know, is well meant. But as it is up hill to Fort Stockton we would have had to climb instead. No, no! Nothing doing, boys. Where we made our mistake—seeing we should have had to walk—was in not starting last year! But why cry over spilled milk? Forget it! But remember, boys, Hondo is going to entertain the Texas Dry Farming Congress next year. Start early! It is a wise one that profits at the expense of the other fellow's experience.

GOVERNOR Colquitt has gone to Cool Colorado in search of that political peace that he has not been able to find in Texas, and left the burdens of state with Lieutenant Governor Mays. There is said to exist a strong political attachment between these two.

In view of the prevalence of boll weevils there should be a concerted effort made to destroy the cotton stubble as soon as the cotton is picked. No place should be left for the weevil to hibernate. Therein will the cotton farmers find their best safeguard against the ravages of the pest next year.

THE Hondo Anvil Herald has just passed her 25th mile post, and we hope that she may continue to spread and prosper, as its influence is for the right.—Bandera Enterprise. Thank you, brother. We try to lend whatever influence we may have always for the right as God has given us to see the right.

THE State Tax Board has fixed the total tax for 1913 at 45 cents on the \$100 valuation. This with the 27 cents county tax will amount to 72 cents. The county tax rate is the same as it was last year while the state tax has been increased 13 1-3 cents. The tax for Confederate pensions is fixed by the Constitution at a maximum of 5 cents.

THAW's spectacular flight from New York to Canada last week and the impending legal battle to bring him back to his prison cell in the insane asylum bids fair to give him front page position in the news of the world for some time to come. What a pity this profligate can not be allowed to go his way without so much fuss about it. About the only service he ever rendered the world was in ridding it of Stanford White and that wasn't so much.

It is to be regretted that Medina County was not represented at the Road meeting at Del Rio last week. The Anvil Herald has long had a vision of a macadamized road traversing Medina County from its western to its eastern border, such as will be expected of her as a link in the proposed roadway from the Pacific to the Gulf, but we have not advocated it because we felt that the county was not ready for such a propaganda. It seems that it is not yet ready. But the dream will some day come true!

On a large proportion of the farms of this State there are creeks, ravines or gullies that could be dammed at comparatively small expense, thus forming lakes or pools to catch and hold in the aggregate a vast amount of flood-water. The lakes already built could and should be greatly enlarged, insuring an abundance of water for man and beast, in many cases enough to irrigate on a moderate scale, and also furnishing power to run the ordinary farm machinery. Useful shade or fruit trees could be easily, cheaply and profitably grown on the banks of these lakes, and the evaporation from the waters would, to some extent, cool the atmosphere and presently, when we have a great number of such pools, might possibly increase our rainfall. With just a little care and attention the fish from the lakes would be an appetizing addition to the food supply. If the people generally will become enthusiastically interested in this subject and show their faith by their works, our lawmakers will soon catch the spirit of the enterprise and give county and state support to water conservation on a larger scale, by creating water bonding districts on the order of our road, levee and drainage districts, and many great reservoirs will be built that will catch and hold, in the aggregate billions of tons of water. The combined efforts of the State, counties, cities, towns and country neighborhoods would save billions of barrels of floodwater which now goes wastefully to the Gulf, carrying with it millions of tons of fertilizing matter washed from the soil, which should be conserved, greatly adding to the comfort, happiness and prosperity of all the people. In fact, if we will cultivate more intelligently and carefully, conserve the fertility of the earth as a priceless inheritance and catch and hold the storm waters, we will make Texas a veritable agricultural Eden, capable of supporting in prosperity and happiness millions and millions of people for an infinite time. Let us form a Flood Water Lake Club in every precinct in the State, and by concerted action and neighborhood co-operation we will work wonders and dam Texas for the good of all the people.—Henry Exall.

THE cotton crop is turning out much better in many instances than was at one time expected. With the present prevailing prices the farmers will have some surplus money despite the weevils.

Make John A Business Man—Mary A Business Woman.

Most parents did not have the advantages of a Business Training at their door, and are not satisfied to see their sons and daughters go through life as they have without this training. They want to see their sons become bright-eyed, keen, alert business men, able to figure rapidly and accurately, to spell well, to write a good hand; to be able to draw up notes, deeds and mortgages. They want to see them in business for themselves, or on a good salary as bookkeeper or office manager.

They want to see their daughters obtain a salary-earning education that will make them independent, or that will enable them to use wisely anything which they might have bequeathed to them. They want their daughters to have an insurance against any misfortune which might come.

It is to this class of parents that SAN ANTONIO BUSINESS COLLEGE appeals most strongly.

Send us that son and that daughter, and if there is a man in the boy or a business woman in the girl we will surely develop it.

Write today for catalogue, terms and pictures of successful graduates. Address: H. C. Mitchell, President, SAN ANTONIO BUSINESS COLLEGE, San Antonio, Texas.

Remarkable Cure of Dysentery.
"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by W. H. Windrow.

So Many People Die of Blood Poison.

A little scratch on the hand a splinter or small abrasion of the skin is often fatal because the poisonous germs start the infection. That is where Hunt's Lightning Oil comes in handy as an application on the abrasion, kills all germs which may have lodged there, thereby preventing infection and death. It pays to keep this remedy in the home, especially where there are children. All drug stores in 25c and 50c bottles.

Even the man with an iron will knows his heirs can break it.

Stepping on a rusty nail has been the cause of many cases of lockjaw. The nail was not so much the fault as neglect of the wound. If such wounds were promptly cleansed and BALLARD'S SNOW LINIMENT applied there would be no lockjaw, as the antiseptic properties of the liniment would counteract the poison and the wound would heal quickly. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

Scratching For Fun

We would have great sympathy for those who have to scratch continually, if there wasn't a remedy for the trouble, but as Hunt's Cure is Guaranteed to cure or money refunded, it would seem that those who scratch do so just for the fun of it. It's a special remedy for Itch, Eczema, tetter, ringworm, etc.

NEW MAGNETO PROVES WINNER

Mea, a German Product, Taking Many Prizes in Competitive Tests

SETS NEW EFFICIENCY RECORD

Europe and America are watching a new magneto which is gaining fame abroad. The latest success of this magneto, which is called the Mea, was made in a race across the hills in Craiganiet, Ireland, a few weeks ago, when it was awarded two first prizes. These magnetos were carried in this race on a Gregoire and a Nom motor car, and though the test was extraordinary the magnetos responded to the unusual demands with absolutely perfect scores.

Another triumph for the Mea came in the Grand Prix de l'A. C. F., at the races at Dieppe, France, considered the most important of all foreign motor car events. This race was won by a Peugeot car fitted with the Mea. The car winning second prize in this race also carried a Mea. This achievement is all the more remarkable because of the fact that the races in both places were controlled by competitive products, and the magnetos were all selected from stock and the awards were made on the basis of unmistakable merit.

The winning cars carried only one magneto each, so the entire fortune of each entry depended on the Mea Magneto, while all competing makes carried an extra or reserve magneto on each racing car to guard against failures.

The Mea Magneto has made numerous records which have gained it great popularity, and it is said the apparatus will be strongly in evidence in America in the year 1914.

The Mea is manufactured in Stuttgart, Germany, and Americans will be interested in knowing that Adolphus Busch, of St. Louis, is the principal stockholder. Marburg Bros. Inc., 1790 Broadway, New York, General Agents for United States and Canada.

YOU who require the best and purest medicine see that you get Foley's Honey and Tar Compound in preference to any other for all coughs, colds, croup, asthma, hoarseness, tickling throat and other throat and lung troubles. It is a strictly high grade family medicine, and only approved drugs of first quality are used in its manufacture. It gives the best results, and contains no opiates. A. R. Jelly Roll Recipe

Only Two Eggs Required

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This Jelly Roll is fast becoming very popular on account of the way it keeps fresh. With proper handling it should keep fresh a whole week, providing it isn't eaten up in the meantime, for it is every bit as good as it looks. 33

K C Jelly Roll
One cup sifted flour; scant half teaspoonful salt; 2 level teaspoonfuls K C Baking Powder; grated rind of 1 lemon; 2 eggs; beaten light; 1 cup sugar; 1/2 cup hot milk; glaze of jelly; powdered sugar.

Beat the sugar into the eggs; add the lemon rind, then the flour, sifted three times with the salt and baking powder; and, lastly, the milk. Bake in a buttered dripping pan; turn out on a damp cloth, trim off the crisp edges; spread with jelly and turn over and over into a roll while still warm. Dredge the top with powdered sugar.

Hot milk used in the jelly roll enables it to be rolled without danger of cracking. Have the milk scalding hot, also be careful to have the eggs and sugar beaten together until very light and creamy. Bake in a moderate oven.

K C Jelly Roll is illustrated on page thirty-two of the new and handsomely illustrated 64-page K C Cook's Book, which may be secured free by sending the certificate packed in every 25-cent can of K C Baking Powder to the Jagers Mfg. Co., Chicago, Ill.

Mothers! Have Your Children Worms.

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, or irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c.

HERBINE

A Medicine of Power in All Liver Disorders.

When the liver is torpid, it throws impurities into the system, which hamper every organ in the body. The result is that functional processes are not properly carried on. Impurities get into the blood, the stomach is bilious, the kidneys weak and the bowels irregular—generally constipated. Herbine clears out all these impurities, opens up the obstructed channels, strengthens the torpid liver, cleanses the blood, purifies and regulates the bowels. After the system has been thus overhauled, there is an immediate improvement. Appetite returns, digestion is good, the spirits rise, the mind clears of gloomy forebodings and everything looks bright and cheerful, which means, sound, healthy conditions everywhere in the body.

Price 50c per Bottle.

Good Reason for His Enthusiasm.

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by W. H. Windrow.

Prof. Saathoff plans to have a night session Tuesday evening at which Prof. Fletcher will address the general public and to which the public generally is cordially invited.

As a culmination of a quarrel that has lasted for some time, Andreas Borego took four shots at Manuel Perez with a Winchester rifle late Sunday evening. The first shot grazed the left side of Perez's face and head, carrying away part of his ear, and stunned him. Two other shots fired after the victim fell went into and one struck him in the right breast, passing diagonally through his body above the heart and came out in the region of the left shoulder blade. Although thus desperately wounded, he was brought to town and bids fair to recover. Borego gave himself up to the officers and admitted the shooting.

A class of twelve children, seven boys and five girls, was confirmed at the Lutheran Church Sunday at 10 o'clock A. M. Following is the personal of the class: Bennie Graff, Walter Graff, Edgar Haass, Willie Frerichs, Irvin Frerichs, Herbert Decker and Eddie Wernette, and Ella Frerichs, Amanda Grell, Ruth Rothe, Clara Decker and Minnie Wernette. ACTS ON THE LIVER

Dodson's Liver Tonic Livers Up The Liver—Is More Than a Mere Laxative

Calomel was for years the only known medicine that would stimulate the liver. But calomel is often dangerous, and people are not to be blamed for being afraid of it.

Within the last few years many medicines have been put out to be used instead of calomel, but their effect is on the bowels—not on the liver. W. H. Windrow's drug store says that the only real liver medicine to actually take the place of calomel is Dodson's Liver Tonic, a mild, harmless, vegetable liquid that W. H. Windrow recommends to take the place of calomel and which gives prompt relief in cases of constipation, biliousness and sluggish liver.

So confident is W. H. Windrow that he gives his personal guarantee with every 50-cent bottle of Dodson's Liver Tonic. You can be sure that you are getting Dodson's by asking at this store if they are giving you the medicine they personally guarantee to refund money on if unsatisfactory.

TESS and TED SCHOOL SHOES

Look Better—Fit Better—Wear Better

"TESS and TED" school shoes have become famous for their style, finish and long wearing qualities. Four pairs will outwear five pairs of ordinary shoes made for children's wear.

Many shoemakers yield to the temptation to use substitutes for leather in children's shoes, because of the high price of leather, but we have bunt up our business by selling honest leather shoes.

Get up a pair of "Tess and Ted" or any other "Star Brand" shoes and you will find that they have sole-leather heels, soles and centers. No substitutes for leather are ever used. See No. 3130—a new model for boys.

Pure Shoe Legislation is pending in Congress and many states to protect you against fraud. We heartily endorse it. The rights of 100 million consumers are greater than those of a few hundred manufacturers.

"Tess and Ted" school shoes are made in a hundred different styles for boys and girls of all ages. They are designed to properly fit the foot of growing children.

"Tess and Ted" school shoes and over 700 other styles of "Star Brand" shoes are for sale by 25,000 good merchants. Don't just go into ANY store and ask for them, but come direct to our store. We are specializing on these famous shoes.

The name on the sole and the "Star" on the heel insures honest values.

"Star Brand Shoes Are Better."

Paige Model Glenwood, Completely Equipped, \$1275

HERE IS THE CAR that prominent men in the trade said we couldn't build to sell for \$1275 with all its remarkable design and equipment. Some manufacturers declared it *preposterous* on our part to *assume* that we could do it. Dealers handling other cars declared we would put out a *few* of these really wonderful cars at \$1275, just to get people interested, and then raise the price.

Well, we have been delivering the Paige "36" to our dealers ever since January 1st, and for every car delivered there have been a dozen purchasers waiting.

But have we raised the price? No. And now when the demand for the Paige "36" is simply snowing us under are we raising the price? No.

We are leaving the price *untouched* and *adding still more equipment*. What will the other fellows say now? Can we do it! Well, we are *doing it*. And that is all that interests you car buyers.

NOTE THE NEW EQUIPMENT: Electric Horn, Quickly Adjusted Inside Storm Curtains, Combined Rain-Vision and Ventilating Windshield, Non-Skid Tires in Rear, Ventilated Hood.

Find such complete equipment, if you can, anywhere else in the whole Paige price-field. And find such a car! Any Paige owner—and they are almost everywhere now—will tell you what a car, just as a car, the Paige has proved itself. Those who own the "36", whether the touring car, roadster, coupe or sedan, are enthusiastic beyond words.

PAIGE 25—\$950
Electric Starting and Lighting System, \$75 Extra

From this date we will equip the Paige "25" with an electric starting and lighting system for \$75 extra. The car is designed to take the equipment, and it will be added at request. The additional charge is so reasonable that we know many purchasers of the "25" will want the equipment. Think of this car, with electric starting and lighting, for only \$1025. Wheel base 110 inches—32 in. x 3 1/2 in. tires—sturdy, silent motor, 3 1/2 in. x 4 in.—unit power plant—cork insert multiple disc clutch—wide doors—roomy body.

Equipment of the Paige "25" is very complete, including genuine mohair top, side curtains and top boot; ventilating windshield, built into body; speedometer; two black enamel and nickel gas headlights; three black enamel and nickel side lights and tail light; demountable rims, one extra; non-skid tires in rear; robe rail; linoleum covered running boards; tire irons, horn, pump, jack, tools and tire repair outfit. Five-passenger touring car, equipped complete as above, \$950.

Recovery.

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die."

"I tried different treatments, but they did not seem to do me any good."

"I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it."

"I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it."

"I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest."

What is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. For Sale by W. H. Windrow.

Sallow complexion comes from bilious impurities in the blood and the fault lies with the liver and bowels—they are torpid. The medicine that gives results in such cases is HERBINE. It is a fine liver stimulant and bowel regulator. Price 50c. Sold by W. H. Windrow.

Costly Treatment.

"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by W. H. Windrow.

Judge Johnson: "Ignorance is my long suit, and I have never been able to see the difference between a boxing contest and a prize fight."

Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by W. H. Windrow.

All States Will Shine at the Panama-Pacific International Exposition at San Francisco in 1915

UNITED STATES' GREAT PANAMA CANAL CELEBRATION WILL BE MARKET PLACE OF WORLD.

Texas Leads Union In Agricultural Production and Can Make Vast Exhibit of Its Wonderful Resources.

IN what measure and to how great an extent is the state of Texas to benefit from the opening of the Panama canal?

Figures and statistics will not suffice to tell at this date, because, apart from the inevitable beneficial results which must accrue to all countries blessed with a coast line bordering one of the extremities of the new waterway, the ultimate good that Texas will reap from the canal will be culled from the action taken by Texas herself.

Upon cotton Texas builds her main hope. She is the greatest producer of that necessity in the world. Her exports are largely to the orient and to the west coast of South America, where are the greatest consumers of cotton cloth. The Panama canal will bring those customers of Texas nearer by several days' time and by leagues of distance, thereby creating a quicker and more expeditious supply to a demand that is continually increasing. The rich corn and the full crops of wheat, the multifarious fruits and the ever widening supply of cattle which Texas is producing year by year—these, in addition to its command of the cotton industry, are commodities for which the Lone Star State will find new markets upon the opening of the Panama canal. The demand will be brought into closer touch with the supply. But how is Texas to secure that demand to herself?

She must find the opportunity that will present her products to the new markets and emphasize them before the oil markets.

Such an opportunity will be provided by the Panama-Pacific International Exposition, which will be held at San Francisco in 1915.

This gigantic festival of commerce is by decree of the United States government the official celebration of the completion of the Panama canal. The Exposition has a purpose which reaches even higher than a national assertion of a nation's success in establishing a means of revolutionizing the commerce of the world. The purpose of the Exposition is to bring the nations of the world together, that all may see what all have done in their industries and in their commercial enterprises, that one may compare with the other and so determine upon the best sellers and the best buyers.

To put the situation even more precisely, the Panama-Pacific International Exposition is to be the shop window of the world in 1915. It is to be the general department store, the universal bazaar of a new era. And to that department store or bazaar every buyer and seller in the world will come to look upon the newest product, the most modern means of manufacturing the product into the salable article and to learn the reason why one thing is better than another and why one way is more advantageous to the benefit of the consumer, to the credit of the producer and to the welfare of the community.

Briefly, then, that is the boon that the Panama-Pacific Exposition offers to those who participate. It proposes to establish sounder trade between states, between countries and among the peoples of the world. The Exposition is a peace movement of the most definite compass. Its compass is the binding of nations, because commerce is the surest tie of friendship.

And the one tremendously moving principle of the Exposition is that the participants in this international festival shall reap its benefits practically for the mere asking. The space for exhibits is extensive, but is nevertheless limited. Those who come first are the first served. It is not a question of who pays the biggest price. It depends upon who grasps the opportunity most firmly. The race is to the swift. The battle is to the strong. If Texas runs Texas will win; if Texas strains and strives Texas will be the victor.

It costs nothing to win. There is no charge to the victor. Exhibit space is absolutely free to all exhibitors at the Panama-Pacific International Exposition. All the capital which has been put into the great Exposition and all the millions who will attend are at the disposal of the exhibitor, without any cost whatever to him, except the cost of transportation, installation and maintenance.

There are those who are in the race already—those who have caught the meaning of the opening of the Panama

canal and understood the expression of that meaning in the Panama-Pacific International Exposition.

Many of the nations of Europe and China and Japan in the orient already have officially accepted the invitation of the president of the United States to take part in the United States celebration of the nation's grandest achievement. A more complete representation of the Latin-American in an Exposition has never before been made. Of the western countries which have realized that they will find markets at the Exposition are Bolivia, Chile, Costa Rica, Ecuador, Guatemala, Mexico, Nicaragua, Panama, Peru and Salvador. All of those countries will be at the Exposition, represented by exhibits of their resources, displayed in a manner that will impress and convince, assuring other countries of the world of their natural and industrial power.

Half the advantage of a good shop window is in the manner in which the goods are set out. A well arranged store will always sell more than a store which is a jumble of effects thrown together in unmethodical profusion. America has determined that the universal department store of 1915 shall be the best looking store that has ever been opened to the world.

It is costing \$80,000,000 to complete. California, chosen as manager of the store by national approval, has devoted \$17,500,000 in hard cash to the equipment of the Exposition, and her total investment, when the appropriations of the counties are considered, will exceed the magnificent sum of \$20,000,000. So that the Panama-Pacific International Exposition is not going to be an ordinary exposition. It celebrates an event which is very much above the ordinary. The opening of the canal is an event of supreme significance. The Exposition which celebrates the completion of the canal will be of such an extraordinary kind that it will fittingly express that tremendous significance.

San Francisco is making ready for the reception of the nations of the world which will visit the great bazaar in 1915. She has begun to build. The site of the Exposition at Harbor View, San Francisco, where the waters of the bay of San Francisco narrow down to the channel of the Golden Gate, is now taking shape rapidly. Giant structures of truly massive grandeur are being erected.

In all there are fourteen palaces of exhibits to be erected by the Exposition Company in the middle section of the World's Fair. The other two sections are to be occupied on the west by pavilions of foreign nations, of which twenty-four have accepted the invitation to participate, and on the east by an aggregation of amusement concessions which are to be of the most novel and entertaining kind.

The fourteen main exhibit palaces will house the displays of eleven departments, which have been classified into 156 groups, subdivided into 800 classes. The departments consist of the following: Fine Arts, Education, Social Economy, Liberal Arts, Manufactures and Varied Industries, Machinery, Transportation, Agriculture, Live Stock, Horticulture and Mines and Metallurgy.

Texas will find its particular appeal in the palaces of Manufactures and Varied Industries, Agriculture, Live Stock, Horticulture and Mines. In those palaces will be found the competitors of Texas in the industries there represented. All the great cotton growing states will have their exhibits to show to the world, while the countries which want cotton to manufacture into cloths and textures will visit those displays and choose their markets.

The palaces in which the displays will be arranged are of an unprecedented beauty, set in a picture which no previous Exposition has had for its natural surroundings. California's climate permits of floral extravagance if there ever could be such a joy as a superfluity of charm. The Exposition will be a garden in which the efforts of man will stand among the results of nature's own working.

America is the hostess of the world in 1915, and she wants to see that her own household is properly represented at the international "at home." Not to be fully represented is to offer a slight to the guests who are going to be there in their best clothes.

Texas has much to show. She has much to smile for. She has much to give, but infinitely more to receive. And she receives with no outlay whatever.

LET'S SHOW 'EM WHAT WE HAVE.

STATES ARE HUSTLING---EXHIBIT SPACE FREE.

Exhibit space is absolutely free to all exhibitors at the Panama-Pacific International Exposition in San Francisco in 1915.

All the capital that is being put into the great Exposition and all the benefits to be derived from the millions of visitors who will view the exhibits are at the disposal of the exhibitor without any cost whatever to him, except the cost of transportation, installation and maintenance.

Every state in the United States will be represented at the Exposition. In most of the states the legislatures have made direct appropriations for participation. In the few that have not done so commercial interests are co-operating to raise large sums in order to have their states represented. This is being done in Iowa, Oklahoma and other commonwealths which feel that as they bore a part of the expense of building the Panama canal their citizens should participate in the Exposition that is to celebrate the canal's completion.

THOUSANDS WILL VISIT TEXAS ON WAY TO THE GREATEST OF WORLD'S EXPOSITIONS.

Huge Agricultural and Live Stock Displays a Part of Marvelous Universal Exposition in 1915

THE whole world is interested in the United States' great Panama Canal Exposition, the Panama-Pacific International Exposition, to be held in San Francisco in 1915. More than a year and a half before its opening the Exposition is assured as the greatest celebration in the history of the American people.

Thousands of visitors from all parts of the earth will attend the Exposition. Each one of the eight transcontinental railroads terminating upon the

The sum of \$175,000 has been appropriated by the exposition management for prizes and premiums in live stock, and \$225,000 has been set aside for business racing. An unusual feature of the live stock exhibit is that the cattle will be on exhibition during the entire course of the Exposition from Feb. 20 to Dec. 4, 1915.

The Panama-Pacific International Exposition will represent an expenditure of many millions. According to a recent statement gathered from the comptroller of the Exposition, the total outlay for the big show on the day of its opening will be \$80,000,000, and this will not represent the enormous amount represented in the exhibits of the world. Some of the exhibits will represent outlays of \$250,000 to \$500,000.

The exhibit buildings will be grouped along San Francisco bay not far from the famous Golden Gate, the entrance to the superb harbor of San Francisco. Indeed, the buildings may be seen to best advantage by any one entering the Golden Gate. Even now a splendid idea of how the complete Exposition will appear at a distance may be gained from a view of some of the palaces now arising.

The tallest structure at Harbor View, the Exposition site, will be 426 feet. Around this will be grouped huge domes, minarets and towers, which from a distance of four or five miles

Pacific coast will issue low round trip rates. Undoubtedly hundreds of thousands of travelers will see Texas for the first time, and great numbers of them will take advantage of stopover privileges to see Texas either on their way to the Exposition or else upon the return trip.

From foreign lands will come multitudes to America for the first time. Twenty-seven of the world's great nations are preparing to make governmental displays, and from each foreign country delegates will attend to see the part their native land is taking at America's Panama exhibition.

The opening of the Panama canal marks a new epoch in the world's trade. The shifting of trade routes that have endured for centuries and the opening of new fields of commercial expansion to the nations of the earth are anticipated in every financial center in the world. Many of the greatest manufacturers of the world will bring their wares and display them upon an elaborate scale at San Francisco.

The United States is shortening the sea voyage between the Pacific and Atlantic coasts by 8,000 miles. It is providing markets in South America for the products of hundreds of thousands of farms, ranches, factories and great industrial plants in the United States. It is opening up to the profitable commerce of the European nations the Pacific coasts of North and South America and is rendering possible direct commerce between the orient and the Atlantic coasts of North, South and Central America. Every state, territory and colonial possession of the United States will share in our increased national prosperity. Every country in the world will profit. The nations of the world are preparing to participate in the Exposition upon a vast scale.

The Panama-Pacific International Exposition will be unlike any great world's exposition ever held. In the first place, it will not commemorate a past achievement, but one that is making history today and which holds out almost unlimited possibilities for the future. As the Exposition will be educational, all exhibits will be shown in action wherever practicable. It is planned among other exhibits to present the greatest displays ever made of the processes of cotton manufacture. The most modern cotton gins ever shown will be exhibited. The heaviest exhibits in the world will unload directly on the Exposition grounds from the ferry slips and thence be carried by train into the exhibit palaces.

Of particular interest to the citizens of Texas will be the wonderful live stock displays. These will, it is now known, surpass any ever made at the greatest of world's expositions. They will indeed be comparable to a tremendous state fair at which are shown the most valuable prize winners from half a hundred states as well as from dozens of great foreign countries. Prize live stock from Holland, Belgium, England, the Argentine, China, France and other lands will be shown side by side with the greatest live stock animals of America. Texas, with its vast herds of range cattle and its thousands of head of high grade dairy stock, is in position to make a showing that will rival that of any part of the world.

will seem like the great domes of Constantinople, only upon a far greater and more impressive scale.

The center of the Exposition grounds will be devoted to the huge exhibit palaces in which exhibits from all parts of the world will be displayed. There will be about fourteen exhibit palaces covering a hundred acres. A single building, Machinery hall, will be 967 feet long, 367 feet wide and 135 feet high. This gives an idea of the huge size of the structures.

To the west of the main exhibit buildings and immediately adjoining them will be the vast space reserved on the picturesque Presidio reservation for the great pavilions to be built by the foreign nations and by the different states. It seems certain that every state will be at the exposition, more than \$2,000,000 having already been set aside for state exhibits.

THE STATE OF TEXAS. To the
Sheriff or any Constable of Medina
County, Greeting:—

You are hereby commanded to sum-
mon J. N. Berryman, the unknown
heirs of J. N. Berryman, W. H. Par-
sons, the unknown heirs of W. H. Par-
sons, Myra W. Parsons, the un-
known heirs of Myra W. Parsons,
Jacob Massina, the unknown heirs of
Jacob Massina, A. P. Granger, and the
unknown heirs of A. P. Granger, to be
to be and appear before the Honorable
District Court of Medina County, Tex-
as, at the next regular term thereof to
be begun and holden at the court house
of Medina County, Texas, in the town
of Hondo on the eighth Monday after
the first Monday in the month of Sep-
tember, A. D. 1913, the same being the
27th day of October, A. D. 1913, then
and there to answer a petition in a cer-
tain cause filed in said court on the 27th
day of August, A. D. 1913, being file
number No. 1728, on the docket of said
court, wherein Louis Rothe and A. C.
Rothe Jr. are plaintiffs and the defend-
ants therein being J. N. Berryman, the
unknown heirs of J. N. Berryman, W.
H. Parsons, the unknown heirs of W.
H. Parsons, Myra W. Parsons, the un-
known heirs of Myra W. Parsons,
Jacob Massina, the unknown heirs of
Jacob Massina, A. P. Granger, and the
unknown heirs of A. P. Granger. The
nature of plaintiffs' demand being as
follows, to-wit:

That on or about the 1st day of Aug-
ust, A. D. 1913, they were lawfully
seized and possessed of the following
described lands and premises holding
and claiming the same in fee simple to-
wit:

1st. 738 acres of land, known as
Survey No. 1094, in the name of J. N.
Berryman, described by metes and
bounds as follows: Beginning at the
N. E. corner of survey No. 905, Bra-
zoria County School Lands; Thence
East 2670 varas to a stake; Thence
South 1560 1/2 varas to a stake; Thence
West 2670 varas to a stake; Thence
North 1560 1/2 varas to place of begin-
ning.

2nd. 738 acres of Land, known as
Survey No. 1005, in the name of J.
N. Berryman, described by metes and
bounds as follows: Beginning at the
S. E. corner of survey No. 905, Bra-
zoria County School Lands; Thence
North with the East line of said Sur-
vey No. 905, 1560 1/2 varas to a stake
and mound, made for the N. W. cor-
ner of this survey; Thence East 2670
varas to a stake set for the N. E. cor-
ner of this survey; Thence South
1560 1/2 varas to a stake; Thence West
2670 varas to the place of beginning;
Said two tracts of Land lying and be-
ing situated in Medina County, Texas.

That on the said 1st day of August,
A. D. 1913, the said Defendants un-
lawfully entered upon said premises
and ejected plaintiffs therefrom and
unlawfully withheld from them the
possession thereof.

That plaintiff Louis Rothe's title to
the above described lands is by virtue
of a deed from Alvin P. Granger to
F. Rothe and Bros., a firm consisting
of Henry Rothe, Fritz Rothe, Louis
Rothe and August Rothe, dated Aug-
ust 19, 1889, recorded in the Deed
Records of Medina County, Texas, in
Book A, No. 22, on page 24; and by
deed from the said Henry Rothe and
Fritz Rothe to Louis Rothe and A. C.
Rothe, dated February 19th, 1897,
recorded in the Deed Records of Me-
dina County, Texas, in Book A, No.
28, on page 592, and by deed from A.
C. Rothe to plaintiff Louis Rothe, dated
July 14 1905, recorded in the Deed
Records of Medina County, Texas, in
Book A, No. 27, on page 507. That
the said deed from Alvin P. Granger
to F. Rothe & Bros. was filed for reg-
istration in the County Clerk's office of
said Medina County, on October 3rd,
1889, that said deed from Henry and
Fritz Rothe to Louis and A. C. Rothe
was filed for registration in said Me-
dina County on February 23, 1897; that
said deed from A. C. Rothe to Louis
Rothe was filed for registration in said
Medina County on July 15, 1905. That
the title of plaintiff A. C. Rothe Jr. to
a part of said survey No. 1005, is by
virtue of a deed from Henry Rothe, A.
C. Rothe, Louis Rothe and F. Rothe,
dated ——— 1912, filed June 10, 1912,
for registration in said Medina County,
and recorded in Book A, No. 47, on
pages 439 and 431, of the Deed Records
of said County.

Plaintiffs further represent and al-
lege that they have a good and perfect
title to said Land and premises under
and by virtue of the Statute of Limita-
tion of (3) three years for the reason
that said plaintiffs, and those under
whom they claim by duly registered
deeds, have had peaceable and adverse
possession thereof under title or color
of title for more than three years pri-
or to the institution of this suit.

Plaintiffs further represent and al-
lege that they have a good and perfect
title to said land and premises under
and by virtue of the Statute of Limita-
tion of five (5) years for the reason
that said plaintiffs and those under
whom they claim, as aforesaid, have
had peaceable and adverse possession
of said land and premises, cultivating,
using and enjoying the same and pay-
ing all taxes due thereon as the same
accrue, and claiming the title thereto
under and by virtue of the above men-

tioned deeds of conveyance, duly filed
and registered as aforesaid, for more
than five years prior to the time of the
institution of this suit.

Plaintiffs further represent and al-
lege that they have a good and perfect
title to the lands and premises under
and by virtue of the Statute of Limita-
tion of ten (10) years for the reason
that plaintiffs, and those under whom
they claim, as aforesaid, have had
peaceable and adverse possession of
said Land and premises, cultivating,
grazing, using and enjoying the same
for more than ten years prior to the
time of the institution of this suit.

Plaintiffs further represent that the
title or claim of the said J. N. Berry-
man, and the unknown heirs of the
said J. N. Berryman, if any, to the
above described lands, is by virtue of
the patent issued by the State of Tex-
as, to the said J. N. Berryman on July
16, 1852, being patent No. 579, vol. 9.

That the title or claim of defendant
W. H. Parsons, and the unknown heirs
of W. H. Parsons, is unknown; that
the title of defendant, Myra W. Par-
sons, and the unknown heirs of Myra
W. Parsons, if any, is by virtue of a
deed from said defendant, W. H. Par-
sons, to said Myra W. Parsons, dated
May 6, 1878, filed for record in Medina
County, Texas, on June 27, 1879, and
recorded in the deed records of said
county in Book A, No. 12, on page 530;
that the title or claim of defendant,
Jacob Massina, and the unknown heirs
of Jacob Massina, is unknown to plain-
tiffs; that the title or claim of defend-
ant, A. P. Granger, and the unknown
heirs of A. P. Granger, is by virtue of
a deed from defendant, Jacob Massina,
to the said A. P. Granger, dated March
21, 1878, filed for record in the deed
records of Medina County, Texas, on
June 11, 1878, and recorded in the deed
records of said county in Book A, No.
11, on page 538.

Plaintiffs bring this suit for the pur-
pose of determining the estate, interest
or claim, if any, of each and all of
the above named defendants, or any
person or persons who may claim under
them, in and to said lands and premises
and that the court may adjudge and
decree unto plaintiffs the said land and
premises, free from any claim, title or
interest of the said defendants, or any
of them, and to forever settle by de-
cree of court the title to said lands.

Wherefore, plaintiffs pray that said
defendants, the names of part of whom
are unknown to plaintiffs, and the re-
sidences of all are unknown to plaintiffs,
be cited by publication as prescribed
by the Statutes of this State, and that
upon final hearing in the case that
plaintiffs have judgment of the Court,
declaring and adjudicating the title to
the above described lands to be in plain-
tiffs free from any and all claims in
favor of said defendants, or any of
them, and for such other and further
relief, general or special, legal or
equitable, to which plaintiffs may be
justly entitled to.

And you will summon the said de-
fendants to so answer the said petition
by making publication of this citation
in some newspaper published in Medina
County, Texas, if there be any news-
paper published therein, but if not,
then in any newspaper published in the
nearest county where a newspaper is
published, once in each week for eight
successive weeks previous to the re-
turn day hereof.

Herein fail not, but have you before
said Court at its aforesaid next regular
term, this writ with your return there-
on, showing how you have executed the
same.

Witness, August Kempf, Clerk of
the District Court of Medina County,
Texas.

Given under my hand and seal of
said Court at office in Hondo, this 27th
day of August, A. D. 1913. Issued
same day.

AUGUST KEMPF,
